UPDATE - Palisades Parkway Police Prevents Hatzolah From Treating MVA Patients

September 8, 2009

[UPDATE IN EXTENDED STORY] (10:40PM EST MONDAY) A Hatzolah Ambulance was detained for over an hour, and another member ticketed for responding to an emergency call on the Palisades Parkway (PIP) this evening, YWN has learned.

Sources tell YWN, that Hatzolah received a call for a vehicle involved in an MVA with multiple patients on the PIP, and dispatched units direct, as well as an ambulance from New Square Hatzolah.

Upon arriving at the scene, the member responding in his private vehicle was issued at least two tickets by a PIP Police Officer, and was not allowed to treat the patients, and the arriving ambulance was not allowed to transport any of the patients as well. Additionally, the ambulance was detained for well over an hour.

Unfortunately, this is not the first incident involving the PIP Police Department. In fact, they have a reputation of many altercations with Hatzolah in the past.

The situation became so bad approximately five years ago, that Kiryas Joel Hatzolah stopped using the PIP to transport patients to NYC. Instead they take a longer route using NJ Route 17.

Four patients were transported by EMS to Nyack Hospital in stable condition from tonight's accident.

UPDATE 12:50AM EST TUESDAY: in regards to the comments written by YWN bloggers stating that Hatzolah is not licensed to operate in the state of New Jersey. YWN is exclusively publishing the following letter - which speaks for itself:

THE FOLLOWING WAS WRITTEN ON MARCH 19, 1996 BY THE DIRECTOR OF STATE OF NEW JERSEY, DEPARTMENT OF LAW & PUBLIC SAFETY (DIVISON OF HIGHWAY TRAFFIC SAFETY):

In another matter that is of priority concern, especially in the northeast part of the state (NJ), is the Chevra Hatzalah. It is a volunteer ambulance association run by the Hasidic Jewish community out of New York. They are a voluntary group who provide ambulance service at no charge to the Jewish community. They do travel a great deal through the northeast part of the state in going to and from the southern counties of New York State. There is also a very active group in the Lakewood community. They are fully trained and licensed by the State of New York as EMT’s which is recognized by our EMS system here in New Jersey. The problems that have arisen is that on occasion our various public safety officials have failed to recognize them as a qualified ambulance group. Their responses in New Jersey is on request by a member of the Jewish community who desire an ambulance corporation who share their religious beliefs. In addition, when they come upon an auto crash and want to assist they have been denied the opportunity to do so. I mention this particular group so you might pass it on to your public safety people advising them that they are legal, fully qualified, and licensed to provide first aid and transport. They in no way intend to interfere with any local rescue squad. All they want to do is provide assistance with public safety being uppermost.

If you have any questions about either matter, feel free to contact my office or staff for assistance at any time. Thank you for your time and past support.

Sincerely,

Colonel Peter J. O’Hagan
Director.

NOTE: Actual letter can be viewed [HERE].
These idiots know no discretion.

Officially Hatzolah notifies their base when an ambulance or Hatzolah have to pass by.

Not sure what happened this time.

I would suggest Hatzolah put all their political weight to solve this once and forever. I'm sure they'll have at least tacit approval from the locals who hate the buffoon squad as well.

12. Hatzolah does a great thing and all, but they are not licensed in NJ and legally they are only allowed to treat patients if they are passing by a scene and then they are legally responsible to. Is the response time really quicker than local EMS! And what are the dispatchers thinking by dispatching units direct to another state on the Palisades (when there is a history) when on any highway it shouldn't be done?! I don't see this any
other way than a huge Chilul Hashem... This is not in any way to condone what the Parkway Police did was correct, holding up patient care is pretty serious and frankly not very professional.

14. As one with huge respect for police agencies everywhere I find this story if reported correctly very disturbing. Since the PIP are a two state agency the dealing with this problem must be addressed at the highest governmental levels. Both Governor Jon Corzine and Governor David Paterson must intervine to make sure this type of problem never happens again. I don't know what the issues with Hatzolah are with the PIP but this must stop ASAP!!

20. If this is true, the police should be indicted for causing injury to the patients by interfering and preventing the medical team from treating the injured parties. Definitely criminal.

21. I am assuming that the detained EMT and ambulance were each the first with their respective capabilities to arrive on the scene?

Does the obligation of a trained professional to not pass by a problem they see or otherwise become aware of require the volunteer to try to help the victim?

Were there any other ambulance calls that came in that the detained ambulance could not get to because of its being detained?

Comment by Chavrusa O Mesusa — September 8, 2009 @ 5:36 am

22. Hatzolah is Certified in NY State but note that NJ does NOT have similar regulations. It is fully legal for Hatzolah to respond in NJ. However, the Palisades Police put a restraining order on Hatzolah (as far as I know, the only place in NJ to do so). So, the Hatzolah Dispatcher notifies PIP whenever there is a response on the Parkway (part of an agreement with PIP PD).

As for timing, there are times that Hatzolah has been on scene and transported before the local corps were able to respond (despite multiple notifications to the local dispatcher).
23. #18 I'm sure you meant to say that the Torah law is that we can save a life regardless of issurim involved as opposed to being above the mitzvos. We aren't above the mitzvos ch'v. And I would suppose going against the law would usually not save lives in the long run because if Hatzalah gets into trouble then they will have difficulty saving lives when the law allows it which I can imagine is in the majority of cases. I'm not condoning the officers actions in any way, just wondering what the dispatcher's reasoning would be.

Comment by Shlomo2 — September 8, 2009 @ 6:35 am

24. I remember I once went on a date w/ a guy on hatzolah and he basically told me the same thing.. the PIP have something against hatzolah for some reason and refuse to allow them to treat any patients, even if their unit will take longer to respond and the patient may ch'v pass away or be seriously injured because of the lack of response. I normally defend the police, but in this situation, because I have heard this kind of situation happen to many times with the palisades police, I really have nothing good to say about them. Like #19 said, just think if this was YOUR child. Nothing should come before saving a life.

Comment by lakwoodr — September 8, 2009 @ 7:34 am

25. It isn't legal for an NYS certified ambulance to operate in NJ. This problem, of NY Hatzolah's responding to calls on the Palisades is an old one. #1. An NYS ambulance CAN NOT respond to a call in NJ. They may pass thru on the way to a hospital, but they CAN NOT respond in NJ. #2. It would take at least 20+ minutes for an ambulance from Monsey to make it to exit 3, some how i doubt the local response time is that bad. #3. There are several NJ Hatzolah's nearby (Passaic, Elizabeth, North Jersey,) why not just call someone who is allowed to respond. #4. Do people think calling up a Police Department to complain is going to get them to stop pulling over ambulances? If you speed you will get pulled over, its not that the police are Anti-Semitic, their just doing what they have to do to keep the roads safe. I dont speed and I dont get pulled over, its that simple. Run lights and sirens with a NY permit thru a NJ town, and chances are you will get pulled over!

26. maybe there can be a respectfull email/phone call blitz to officials both elected & police. i'm it will make a difference if their phone lines are flooded nonstop. Maybe once & for all this will be taken care of & hatzolah could do their job. i'm not saying the locals aren't good, but quite often hatzola will have medics or dr's when locals wont & if necessary can do a transport to a better hospital. If there is a law, then it could be changed just like everything else. if we just had some achdus & 1 official liason to tell us what, where, when. Of course all with respect & b'kidush hashem. May we see the comming of Moshiach , through us being nosay oil b'chavayroi

Comment by thecommissioner — September 8, 2009 @ 9:47 am

27. so some of u get the picture with a bit more details NYS EMT's Are allowed to operate in NJ and as far for the summons the first responder that arrived to the scn. was issued a parking ticket (believe it or not) for parking his vehicle on the grass and a speeding summons. now as far as NS Ambulance they where held up at the scn. for over a hour with all 3 members drivers lic. taken and this is a ongoing issue where PIP cops act like animals and always look where they could arrest Jewish people and when they do arrest someone they treat that person like the biggest criminal, I would like to see the Federal Government get involved in this and do a investigation on the PIP Police once and for all this is a Interstate issue now.

Comment by Baal Boose — September 8, 2009 @ 11:31 am

31. to #25
First, the local response IS that bad, a hatzolah unit WILL get there before the palisades ambulance. Second, as far as I'm aware, they will not even let hatzolah units pass through on the palisades at all, whether or not they're responding to a call or just transporting (for transport, I believe they will eventually give permission, but it's so complicated to get it bthat in most situations, they will just bypass the palisades altogether).

One was for blocking the flow of traffic & the other for going off the paved road - kind of a "steera".

This is not the first time.
The Chaya had a tremendous attitude, and would not allow the Hatzolah members to even respond. Just a bunch of yelling.

37. The simple minded solution is for Hatzolah NY to become licensed in NJ as a BLS provider, Or operate under the license of an existing NJ licensed Hatzolah. I dont know why H NY doesnt reach out to TVAC or Passaic Hatzolah in these cases.

Comment by ASouthernYid — September 8, 2009 @ 12:22 pm

38. One thing confuses me. If this happened in NJ and was not the jurisdiction of a NY EMS Service, then why were the patients transferred in a completely opposite direction to Nyack in NY. Aren't there local Hospitals in Englewood etc?
Am I missing something? We can't treat the patients at the scene, but we have to take them into NY Hospitals?

41. Actual facts:
An emt of the local ems squad was the first to throw the hatzalah emt off the scene with attitude.

Then it was the police officer that yelled at the hatzalah emt as he was leaving the scene that he wasn't authorized and didn't belong there.

All members acted in a professional manner at all times including pulling off the road properly.

The holdup was only a half hour.

YES, all proper protocols (including phone calls) were followed and there never should have been any issues.

45. Yes, it is illegal to respond in NJ for NY Hatzolah. However, there have been problems between Hatzolah and PIP even on the NY side of the Highway. One must keep in mind that the NYC dispatchers cannot dispatch Monsey Hatzolah, rather they call Monsey base and request for assistance. NYC base can send units from Washington Heights or anyone who is on PIP. Its about time all the Machers in Hatzolah start making calls. Just as PIP is allowed to serve both states, there should be some agreement for Hatzolah to respond in both states. Or simply have Hatzolah in Teaneck which is closer to NJ side then Monsey, or you can have a bus near the Yeshivah in Engelwood.

Here, this is strictly a case of an officer with self low esteem peppered with some anti semitism pushing the weight of a badge around to show who's boss. It happens everywhere, in the NYPD, Dept of Bldgs, FDNY, Security guards. it has nothing to do with a particular Agency it's the agent.

Let it be known, that they have a Sergent in the PIP which is a "fire-buff" and uses an unmarked police car, and sometimes his very own private car equipt with lights and sirens to run to scenes and capture photos for the media.

Tell me that's not abusing his power......

Want some more? He just happens to be the "Internal Affairs Officer" at the PIP Police Dept.... talk about the "cat watching the milk".....

So this officer can run around for a hobby, but a violunteeer running to save a life gets detained, harrassed, called names, and issued summonses?!

More inside info about the corruption at the PIP PD to follow.

The letter that was mentioned is 13 years old. I think an update is needed. Even without this directive, this should not happen.

98. It’s a shame that we can’t realize we are in golus. Everybody is screaming Antisemitism. We should do this and we should do that. About how we should stop making a Chillul Hashem and do Teshuva? I didn’t understand this whole situation the way it was being reported acc. to YWN especially after they printed that letter. It didn’t make sense to me that a whole PD, not just a few were Antisemitic. After #41 comments’, I understand now what the cops were doing. In NJ the way it works (not like NY) each area has a primary First Aid squad or EMS responder. It is their territory, no one else’s. It’s totally up to them if they want to call for help or mutual aid-they don’t have to. So what happened here was someone on the scene called Hatzolah and they responded legally (See letter). But since it isn’t their primary response area, (even if one of the NJ Hatzolahs would have responded), the EMT whose primary response area it is, decided to utilize his legal right to remove all other responders. Like I said before -if you don’t like their law, try to change it, but you aren’t allowed to break it.

103. I second #98.

My dear friends, about 2000 years ago we were sent into Golus. Part of that gezeirah was that we don’t always get treated the way we’d like to be treated. Yes we live in a Malchus She’ll Chessed and conditions for us are a lot better than any of our previous Goluyos but I don’t think its reasonable to expect that anti semitism should not exist at all. We should be glad that this is the form of golus that Hashem in his wisdom decided we can handle. I don’t think its neither right nor wise to start protests over an issue like this. How do you think the average non-Jew would view a slowdown? As a Kiddush Hashem that Jews care about their own or rather as a Chilul Hashem that the Jews expect to get their way. Somehow I suspect the latter. Where are all the people who in recent months were screaming about the Chilul Hashem in Yerushalayim. Do you think the world will really look at this different? Yes its difficult, but sometimes we just have to swallow the painfull pill and daven that the Galus end.

Law Enforcement Bill Calls for Shutting Down Parkway Police in Favor of Bergen’s

By CAREN CHESLER

http://www.nytimes.com/2008/12/14/nyregion/new-jersey/14palisadesnj.html?_r=1&pagewanted=print

THE Palisades Interstate Parkway is a 42-mile stretch of road that runs alongside the cliffs bordering the Hudson River, between the George Washington Bridge and Bear Mountain. In New York, the road is patrolled by the New York State Police, but in New Jersey, the highway is not patrolled by the state or county police but by the Palisades Interstate Parkway Police Department, a small agency of 24 employees created in about 1910.

The parkway police patrol not just the highway but also the 2,500 acres of Palisades Interstate Park in New Jersey. The agency even has its own court system to handle fines and penalties. But now there is a bill pending in the State Legislature that would disband the department and have its duties taken over by the Bergen County Police Department.
Democratic Assemblyman Gordon M. Johnson, a former Englewood police sergeant, Bergen County undersheriff and one of the bill's sponsors, said the measure could save the state $1 million to $2 million, as parkway buildings are shut, the parkway commission's court system is closed and the number of workers needed to handle the job is reduced. Mr. Johnson said he believed the 93-member Bergen County Police Department could control the parkway with just 15 officers, and their cost would be covered by having Bergen County's courts, and not the parkway commission's court, receive the revenues generated by parkway fines. That figure amounted to $1.6 million last year, according to the parkway police.

"We have a billion-dollar deficit in the 2008 budget, and this will save them $2.1 million," Mr. Johnson said. "That's not much, but it's something."

The matter was brought up on Monday at an Assembly committee meeting. No vote was taken, and the discussion is to continue in January.

While the cost savings are attractive, Mr. Johnson said the issue fell into his radar after he received eight or nine complaints from defense lawyers who contended their clients were targets of aggressive enforcement by the parkway police.

"That's what made me look at them," Mr. Johnson said.

He spoke to the parkway police, he said, and was told the complaints were investigated and deemed unfounded.

The number of motor vehicle summonses issued by the parkway police has increased to nearly 20,000 a year over the last several years from 7,388 in 2003, the parkway police said. The number of arrests have also increased to nearly 621 last year, from 60 in 2003, the police said. Among those arrested in recent years was Garry McCarthy, the Newark police director who got into an altercation with the parkway police in February 2005 after they ticketed one of his daughters at a highway rest stop. Mr. McCarthy, who was then deputy commissioner of operations for the New York City Police Department, was arrested briefly and fined $200 for obstruction of traffic.

In 2005, the American Civil Liberties Union of New Jersey and Garden State Equality called for an investigation into reports that the parkway police were targeting gay men for lewd conduct arrests in the park. Almost 90 people had been arrested for lewd conduct the previous year. Last year, that figure was five.

"There were clearly problems involving abuse of power and targeting gay men, and it took a push from us and a stinging rebuke from a New Jersey appellate court before things started to change," said Edward Barocas, legal director of the American Civil Liberties Union of New Jersey.

James F. Hall, the executive director of the Palisades Interstate Park Commission, said that after the complaints, videocameras were installed on all of the department's police cars in an effort to make the process more transparent.

"Clearly, we will take enforcement actions against activities, whether it's speeding, lewd activity or whatever," he said. "But it's never been targeted at any group nor have we had any real assertion that it was."

Mr. Hall questioned how Bergen County could save money if it has to hire 15 more officers at the county's pay scale, which is much higher than what his officers are paid. The base pay for the parkway police is $49,000 and tops out at $71,000 after about a decade, the parkway police said. The Bergen County police are paid $17,000 initially but salaries rise to more than $90,000 after five years and topped out last year at $109,000, according to Bergen County officials.

"At some point a few years ago, we had engaged in discussions for them to provide service," Mr. Hall said, "and the cost for them to deliver that service was more than for us to do it because their police pay is so much higher than ours."

Bergen County officials say they welcome cost-cutting mergers. Bergen, the state's most populous county, has 70 municipalities, each with its own police department. Even Ho-Ho-Kus, with a population of 4,000, has its own force. But attempts to merge are always met with opposition and cries of home rule, said County Executive Dennis McNerney.

"We found a niche here with the parkway police," Mr. McNerney said. "This could start the ball rolling."

116. I propose the following: Two cars drive along-side each other at the 50mph speed limit, one in the right lane and one in the left. Start at exit 9W and drive all the way to the GWB at the exact posted speed limit, not one bit faster.

I have seen this done elsewhere as a form of protest. Cars began to pile up and drivers actually flooded 911 with calls screaming that people were holding up traffic.

You are in complete compliance with the law and cannot be pulled over. If it’s done several times a day - particularly during rush hour - the police will receive enough calls. You only need two people to do this.

It's a perfectly legal manner of protest.

117. For those of you who say that they saw the tickets find out the name badge# of the police officer on the scene then we can give much more detailed complains. and to my opinion the only way to solve this is to come down with a huge amount of pressure on these chayes. Let it be phone fax or email. And it has to be to each and every number provided here and please anybody who knows where and on whom to complain please post. And for those complaining its very important to be civil and polite. If you'll be just angry and screaming. You'll end up looking like an idiot and it will be worthless be calm and make your point. And ask for a confirmation on your complaint so we can follow up if it went somewhere. AND FOR THOSE OF YOU WHO WORRY IF HATZOLOH IS MAKING A CHILLUL HASHEM MAY HASHEM HELP YOU YOU SHOULDN'T HAVE TO USE THEM BUT I THINK IT WILL CHANGE YOUR OPINION HAVING TO WAIT FOR GOVERNMENT HELP WHILE SEEING A LOVED ONE SUFFERING. HOW STUPID AND SELF HATING CAN YOU BE?
118. 111

Mod.- please remove his post!

Comment by Health — September 8, 2009 @ 11:09 pm

120. To 116,
I don't know if it's legal or not, but you won't accomplish anything besides more hatred towards Jews. Did you ever see the african americans protests? They get legal permits. What does the average person who gets caught up in traffic because of them, say about them? Does he think to find out whether they have a legitimate complaint or does he start hating them even more? I think people have to calm down and use their brains and not their emotions to come up with a workable solution!

Comment by Health — September 8, 2009 @ 11:19 pm

121. The letter is not a legal opinion and is incorrect factually. An NY certified EMT may provide EMT care in NJ, but a New York State certified ambulance may not be called to NJ for a call. There is a difference between an ambulance and an EMT. In fact, according to the DOH certificate granted to Chevra Hatzala they may only respond in the five boros of NYC. The five towns was a loophole put into the law recently by Shelly Silver. By responding out of that territory they are no longer certified by NY.

So I will stand by my statement.

That said, I am in no way condoning any PIP Officer's actions.

We won't get anywhere by antagonizing goyim. We are not just another minority but rather Yidden. There is NOTHING that we can do that can eradicate anti-semitism!

And nobody here is bashing Hatzolah. There are just many of us that believe a protest would be a wrong thing to do and a Chilul Hashem. Nobody said Hatzolah is a Chilul Hashem!!

Comment by 12786 — September 9, 2009 @ 7:38 am

125. I personally spoke with a Jewish bank manager, whose Husband is PIP police officer, who told her, that pписades police officers, have a direct enjoyment, of stopping jews Erev Shabbos, and holding them up for trivial matters for long times, enjoying the begging of the jews "please i will be late for Shabbos" and they try to cause people to be Mechallel Shabbos
126. As someone who works in both NJ and NY as a medic, along with also being an H member, on top of which having done numerous transports via the Palisades and NJ in general even before having NJ licensure let me clear a few things up. A NYS EMT in NJ can treat a pt if they are near the border of NY. They can even transport the pt in a NYS cert. ambulance, provided that no other NJ service is there and they do not have to wait for a NJ service to show up. However, NYS services cannot be dispatched from NY into NJ to show up at the call, it has to be a flagdown. If the NYS EMT likes, he can even ride the NJ cert. ambulance to the hospital. Next, the officer should have waited for the scene to be clear, in order to summons or ticket the responder. Even if it meant following the bus to the hospital. Now note, the above bit about the response is not law. it is a courtesy that is afforded in any state that may have populations that lie on its border with any other state. (this could have happened on the border with Penn) It comes from the US DOT suggestions, and extension of the good Samaritan law. So the police were technically right, but not operating in the "spirit" of the law.

127. Based on the letter from 1996, if someone involved in a MVA wishes for Hatzolah to transport them on the Palisades Parkway, they are entitled. It is my right to choose- The Emergency squad cannot transport them against their will-

It is now Wednesday morning on the east coast- any updates?

128. I spoke to the driver of the Hatzolah ambulance; Firstly, the report that only the private vehicle was ticketed is FALSE. The Ambulance received three tickets.

The driver is one of the first members in Monsey Hatzolah. He is a very nice and respected person. Was NEVER yet pulled over for ANYTHING, until his engagement with that animal. an experience he describes as very traumatic, because of the hostility and rage and lack of any professional courtesy they were greeted with that eve.

129. That diver says there were two officers; The older one was more collected, but the younger was completely overtaken with rage, from the moment they arrived he shouted from the top of his lungs, that he will arrest them, etc. After the driver could not merge back with the traffic fast enough for this Gestapo agents liking.

When he pulled over to the shoulder and tried reaching for the registration in the ambulance door/pocket, he asked the officer politely to move away from the door so he can open it and reach. (he is not young.) The officer then slammed the door onto his feet! And kept yelling, harassing them like they would be common criminals.

Is this 2009 in the USA or 1937 in Europe? If this would not be hatzolah, and this incident would make it onto You Tube, this officer WOULD HAVE BEEN FIRED, after a national outcry! CAN WE BE QUIET at such Police brutality?

130. I also want to point out that the Hatzolah dispatch followed all the PIP protocols. (in 2005 there was an agreement reached between the two, which clearly states if a patient request Hatzolah to respond, they cannot be denied. They just need to fill out a paper authorizing care of the NYS ambulance.) They called in to the PIP PD to notify them of their response, and that dispatcher never told them they are not needed, etc. Just hung up.

I was also told that the Chief of that police force yesterday complained their phones are ringing off the hook. He said he needs to first listen to the recordings. (as if there is something on there.) he is just trying to push off time and make this quiet...

Can someone pull the dash cam of those police cruisers, so we can maybe witness some of what went on there? There is a freedom of information law. They will stonewall you if you request it. you better be a professional journalist and a a dose of stubbornness.

131. Maybe they where right but y does the bergen county police never have a problem with hatzalo the only department in the us the pip of the state of new jersey with only 25 people on the force can’t get along with them WHY why ? Does anybody know ? Its crazy the onlyy solution to that problem is to close them down people tried several times to sit down with them and they failed every time.

Its about time .

a) I AM a Hatzolah member.
b) I doubt you are a member because all Hatzolah members know that it IS legal to respond on the PIP. We all received the protocols.

c) The facts of the call are as follows:

Right after the large fire in the F the dispatcher got a call from RH Hatzolah that they are dispatching a rig from New Square but it will take a while for the rig to get there. They asked the base if they can check and see if there are any units in the area. The dispatcher tried and there happened to be a F and W member in the area so they went direct.

The details from the caller were sketchy, if you really a member you would know just becuase it ended up being minor injuries that does not mean it there wasn't potation for it to be serious. (How many chopper transports end up being minor?)
Now, what did Hatzolah do wrong?

Answer: NOTHING.

Comment by HNBNY — September 9, 2009 @ 5:33 pm

142. From what I heard, Hatzolah has met with a lawyer & an Assemblyman. They will get the tickets dismissed & have a “sit down” with the PIP. They feel that a friendly sit down will be more effective. I personally disagree, but who am I?

Comment by Yoelii — September 9, 2009 @ 7:44 pm

143. You folks are really blinded. There was a local EMS unit on scene providing basic life support to the accident victims as required by the 911 call received to the local PSAP. NJ state law requires EMD dispatchers to dispatch the proper units to first aid calls. They followed the state law. Your ambulance was freelancing...it was not requested from the jurisdiction that the accident occurred in and they have the say at the end of the day. I understand the religious undertones but get your facts straight before you criticize. PIP PD was denying life saving service???? Are you serious? There was local EMS on scene already at the direction of the 911 dispatcher and first responder trained police officers. Sorry but the law applies to everyone, no matter race or religion.

Comment by Matchingrant — September 9, 2009 @ 8:42 pm

144. To 143,

Like I said in my previous post -the PIP PD were within their legal rights, but if you have an agreement with Hatzolah and you don't keep that agreement -namely if the victim requests them- that they can transport the victim- you lose the public's trust. Put your ego's aside and let the patient decide with whom he wants to go!

Comment by Health — September 9, 2009 @ 9:57 pm

145. Matchingrant/143:

Quit with your falsehoods.

The Hatzolah was there first, and your (PIP PD) actions were disgraceful, and could have caused serious injury by delaying the medical response.

146. Matchingrant how is Hatzolah freelancing when they received the call to their emergency hotline??? The ambulance was requested and if you want proof you can ask Hatzolah to provide you with a copy of the tapes from EMD recording the actual phone call requesting Hatzolah EMS to respond to the scene. It is illegal for you to prevent EMS (Hatzolah) from treating a patient. Interfering with patient care is illegal. When the scene is safe a police officer has no right telling EMS they can't treat a patient. Hatzolah was first on scene and even if they were not who are you as a PO to say whether they can assist or not. I'm sure that the local EMS can use extra hands especially when dealing with 4 patients. You let your ego get in the way. Why does it bother you that they came to help? Where is your discretion? Ticketing an ambulance???? Why couldnt this be settled after the call at the hospital?? The total patient count is 4. That means you need 4 long boards. did the locals have 4 longboards on them?? Were there already 2 ambulances onscene before hatzolah got there?? The answer is NO. so how could u prevent Hatzolah from treating and transporting the patient. PIP broke the law by interfering in patient care.

147. 146 is totally 100% correct.

143 is correct only in the fact that there was ONE ambulance on the scene when we showed up. Our units were "attacked" before we even made patient contact! We pulled over with our lights & sirens OFF after being DISPATCHED to the call! If we weren't needed a slight wave of the hand or a courious "It's OK, we have it", would have been all we needed to leave the scene. The anger, screaming, slamming doors on a 56 year old foot is not only uncalled for, but criminal!
