8:00AM - 5:00PM

Course Description:
This course is designed to enable personnel to operate efficiently using the Incident Command System (ICS) in supervisory roles on expanding or Type 3 incidents. This course requires 24 hours for presentation. The course unit topics include ICS fundamentals review, incident/event assessment, unified command, incident resource management, planning process, demobilization, transfer of command, and closeout.

Target Audience:
Individuals who may assume a supervisory role in expanding incidents or Type 3 incidents (NOTE: During a Type 3 incident, some or all of the Command and General Staff positions may be activated, as well as Division/Group Supervisor and/or Unit Leader level positions. These incidents may extend into multiple operational periods.)

Disciplines:

Prerequisites:
To be eligible to attend the Intermediate ICS for Expanding Incidents course, candidates must have also successfully completed the ICS-100 and ICS-200 courses offered by the Emergency Management Institute (EMI) of the Federal Emergency Management Agency (FEMA) or the Center for Domestic Preparedness (CDP). Command or General Staff experience is recommended.
**Course Objectives:**
1. Describe how the National Incident Management System (NIMS) Command and Management component supports the management of expanding incidents.
2. Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System.
3. Implement the incident management process on a simulated Type 3 incident.

This course is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System. This course focuses on management of expanding incidents.
