What do we offer for our students:

We use computer based, interactive on-line learning that you can access from your home computer or from our on site computer lab. Our on-line quizzes and exams make it the perfect and most convenient way for the student to apply the knowledge they have learned. We offer the resources of a large University and the most experienced faculty in the EMS field. Our skill labs are set up to allow students to interact with the faculty members and learn in a professional academic setting. We are a National Registry of Emergency Medical Technicians (NREMT) training site for those students looking to become Nationaly Registered.

To learn more about what ST. John’s University EMS Institute can offer you, visit us on-line, just scroll over the lettering in red, click on it and that will bring you to our website! We look forward to hearing from you.
