Free Online Training Program
Epilepsy and Seizure Response for EMS

Goals of the Program:

- **Strengthens** the knowledge of EMS responders in the recognition, causes, appropriate response and management of generalized, partial, and status epilepticus seizures.

- **Enhances** the ability of EMS responders to effectively respond to individuals experiencing a seizure, with an emphasis on epileptic seizures.

- **Helps** EMS responders make informed decisions regarding the proper response to seizures with respect to the need for additional care and ambulance transport.

If your agency plans to participate, please contact:
