Hi Everyone....

NYS DOH Bureau of EMS is sending this e-mail on behalf of the Division of Homeland Security and Emergency Services (DHSES) State Preparedness Training Center (SPTC).

As you may know, the SPTC located in Oriskany, NY was founded to provided advanced and integrated training to and between the emergency services communities. The SPTC is currently undergoing an enormous build-out that will provide the venues for some very unique training opportunities:

http://www.dhses.ny.gov/training/about.cfm  http://www.albany.edu/ncsp/

As part of the build-out, the SPTC is looking to purchase two good used ambulances for use in the EMS training venues. In general, what they would like is:

-- Type 3

-- Good Physical and Working Order
----------- Lower Mileage, No Rust, No Damage, No Mechanical/Electrical or Other Issues
----------- All Front and Rear Seat Belts Undamaged and In Working Order

-- Not Stripped-Out
----------- Although these will not be used to care for actual patients, the students using them should still feel like they are in a real ambulance with real equipment.
----------- Lights & Siren - All Working
----------- Stretcher with Correct Mount, Built-In Suction, O2 Regulators, etc.

If you know of an EMS agency that is getting rid of such a rig, please pass the message that the SPTC would like to talk to them about purchasing it.

The contact is:

Kevin K. Chevrier
Director of Operations
State Preparedness Training Center
NYS Division of Homeland Security and Emergency Services
5900 Airport Road
