Learning Objectives
After completing the S.A.V.E. (Safely Addressing Violent Encounters) program, the learner will be able to:
1. Discuss the extent of violence in emergency medical responses.
2. Recall four signals that identify impending violence.
3. Discuss the role of personal intuition in improving awareness.
4. Recall three diffusing strategies and techniques.
5. Recall the key principles of effective self-defense,
6. Discuss the most common types of assaults on healthcare providers.
7. Demonstrate effective strategies to mitigate and defend against assaults
8. Demonstrate safe and effective strategies to manage violent behaviors.
9. Recall key elements for appropriate documentation of violent encounters.
10. Discuss strategies for minimizing litigation following a violent encounter.
