Medical Orders for Life Sustaining Treatment (MOLST) & Do Not Resuscitate (DNR)

Helping EMS Honor End-of-life Decisions

Course Description:

Honoring patient preferences is a critical element in providing quality end-of-life care. To enable physicians and other health care providers to discuss and convey a patient’s wishes regarding cardiopulmonary resuscitation (CPR) and life-sustaining treatment, the Department of Health has approved the Medical Orders for Life Sustaining Treatment (MOLST) from that can be used statewide by health care providers and facilities as the legal equivalent of a Do Not Resuscitate (DNR) form.

Join Richard Robinson, EMTP/CIC, Senior EMS Representative, NYSDOH MARO as he discusses the MOLST/DNR process and provides insight on what you need to know if presented with this issue.

This course may be applied toward Preparatory, Special Needs or, General Elective CME hours under the NYSDOH Bureau of EMS CME Recertification Program.
