EMS Spotlight:
Street & Prescription Drug Abuse

Course Description:

Bath Salts, Heroin, “Date Rape” drugs, “huffing,” and prescription drug abuse are incidents that require EMS response. Question: Are you ready?

Using participant interactive discussions this session will introduce the attendant to various “recreational” and prescription drugs, their effects, interactions, and EMS management. This session will be useful for both BLS and ALS providers.

Join Guy Peifer, in a fun and fascinating “trip” through the world of drug abuse.

This course may be applied toward Pharmacology, Toxicology, or General Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.
