EMS Operations Spotlight:
Human Trafficking Awareness

Course Description:
Victims of human trafficking, often referred to as “modern-day slavery,” come from all walks of life—they may be US citizens or foreign born, documented or undocumented; they may be male, female or transgender; children or adults. People are trafficked when they have been exploited for the purposes of labour or commercial sex. Cases of human trafficking in a wide variety of industries have already been identified in Westchester County, though many more suspected cases are never uncovered. First Responders must know how to identify human trafficking if they see it—you may be the only person able to get a victim the help they need.

Please join My Sisters’ Place in a training aimed at teaching First Responders to understand the dynamics of human trafficking, identify the signs of this crime, and make appropriate referrals to get victims the assistance they need.

This course may be applied toward Elective CME hours under the NYSDOH CME Recertification Program.

Date(s) / Time(s): Monday, April 22, 2013, 19:00- 21:00
