Large, heavy vehicles surround us on our roads. These vehicles carry large, heavy loads and there will come a time that you will need to rescue someone from the grips of danger when these vehicles and their loads crash. It is not a matter of "if they will crash", it is simply "when they crash". NOW is the time to train for the rescue of trapped occupants from these large vehicle incidents. Join us at Heavy Metal!!

Heavy Metal is presented by the most skilled and knowledgeable staff of instructors that guarantee an education "SECOND TO NONE" in Heavy Vehicle Rescue. The program outline follows and exceeds NFPA 1670** guidelines.

While this program is not an “entry level” class on vehicle rescue, time is allotted to review basic tasks and skills associated with vehicle rescue incidents, in addition to introducing advanced skills and techniques. This program is as “real deal” as you will find, including the high level of risk and hazards involved with working in, on and around overturned or suspended vehicles.

This program is comprised of both classroom training and outside practical evolutions that include overturns, under-rides, stacks, buses and other objects and equipment.

Use of rescue tools, including hydraulic, electric and manual tools, airbags, cribbing, shoring, slings, chains, winches and more will be required.

Program Includes:

- Team Building
- Scene Safety and ICS
- Large Vehicle Anatomy
- Stabilization Evolutions
- Slings and Chains
- Heavy Lifting Evolutions
- Heavy Wrecker and Recovery Basics
- Proper Winch and Rigging Techniques
- Gaining Access
- Problem Solving
- Tools and Equipment
- And More!!

AGREEMENT AND WAIVER / LIABILITY RELEASE

• In consideration for participating in “HEAVY METAL 2014”, I hereby release, indemnify and agree not to sue and to hold harmless T&R Rescue Solutions, Finger Lakes EnviroTech and/or T&R Towing, their officers, agents or employees (Releases’), as well as other participants or the instructors from any and all liability, claims, cost and causes of action arising out of or related to any property damage or personal injury, including death, that may be sustained by me, while participating in such activity, or while on the premises owned, leased or used by the Releases’. I acknowledge this training involves physically strenuous and demanding activities in which I am capable of fully participating. I know of no physical or mental condition that would preclude my full participation in this training.

• I certify that the information on this registration form is correct. I agree to abide by all rules and policies set forth by the training agencies involved. I understand that falsifying information or violation of rules and policies may result in me denied admission to the course and/or loss of course registration.

• I authorize the release of any information concerning my enrollment in this course to my agency Chief and/or Training Officer.

• I agree that T&R Rescue Solutions, Finger Lakes EnviroTech and T&R Towing, are not authorized to provide travel or medical expenses or health insurance. I further agree that my agency maintains appropriate necessary insurance coverage, and I understand that my agency will be responsible for any medical expenses that I may incur as a result of my participation in this program.

• I understand that the activities involved may be hazardous to me and my property.

• In signing this release, I acknowledge that I have read and understand the release and that I am at least 18 years of age and fully competent and a member of a legally organized fire, rescue, EMS, towing or other emergency response organization.

By registering for this course, I authorize T&R Rescue Solutions, Finger Lakes EnviroTech and T&R Towing, to reproduce my name and/or photographic likeness.
