Training Announcement

Issued: November 26, 2014                  Announcement #: 15-06E

Trauma Junkie Series

Scene Size Up - What is it Really?

Course Description:

We simulate "scene safety and BSI!" in the classroom, but what does that really mean...? Do we truly understand the process of creating a safer environment to work in?

The scene size up is the first step in both the medical and trauma assessments. It is a vital part of any call, and a step that will assist in keeping you, your crew, and your patient safe. Yet, many times aspects of this process are overlooked.

Join Drew Fried in discussing the steps of scene safety as well as the most common mechanisms of motion injuries, and the best practices of scene safety.

This course may be applied toward Preparatory or General Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.

Date(s) / Time(s):                   Saturday, February 7, 2015   9:00-10:30am
