TO:        All Ambulance Services and Fire Departments in Suffolk County

FROM:      Nathaniel Bialek, BS, EMT-P, CCHP
           Director, EMS & Public Health
           Emergency Preparedness

DATE:      June 5, 2019

RE:        ePCR Informational Sessions

The Suffolk County Emergency Medical Services (EMS) Division, in conjunction with the New York State Department of Health (NYS DOH) Bureau of Emergency Medical Services (BEMS), EMS Data Coordinator will be hosting two (2) informational sessions at the Division, 360 Yaphank Avenue, Auditorium, Yaphank, NY 11980 on:

1) June 27, 2019 at 10:00 AM; or
2) June 27, 2019 at 7:00 PM.

These informational sessions will be most useful for:

A. Agency Heads ( Chiefs, Commissioners, EMS Captains, District Managers);
B. ePCR agency administrators (EMS Managers, Lead Providers, Supervisors, ePCR managers);
C. Providers looking to understand how ePCR works and agencies wishing to use data to drive organizational change and understand how the system can be used for developing key performance indicators; and
D. Medical Directors and QA/QI Coordinators.

These sessions will discuss:

1. The importance and value of ePCR documentation and data (for EMTs at all levels and agency leadership in Suffolk County);
2. Go live dates;
3. How to use ePCR;
4. How to transition your agency to ePCR;
5. How use ePCR to improve QA/QI and patient outcomes; and
6. Status future plans on regional elite sites (State Data Bridge)

I urge all agency heads, supervisors and providers to attend one (1) of these valuable informational sessions. To register please either call 631-852-5080 or email mark.stark@suffolkcountyny.gov. Thank you.
